----- THIS MONTH'S TOPIC -----

Backup & Recovery: Five Ways To Protect Against Data Loss

Robb Moore, Chairman & CEO, *ioSafe*; Founder, *Kollabra Consulting*

94% of businesses that suffer catastrophic data loss can't recover and close down. When considering both operational disasters (system crash, file deletions, etc.) and natural disasters (wildfires, earthquakes, etc.), the vast majority of precious computer data is left unprotected. This presentation will cover typical backup strategies plus new technology to help both the business and individual protect against data loss.

----- PRESENTER -----
